

# Swift Kickstart

**Swift** is in preview mode and should not be used for anything important. The current cluster will be destroyed and data may be removed without notice<sup>1)</sup>. You would need to have a conversation with Techstaff to do some background setup before following these instructions.

## Obtain Application Credentials

### 1 Login to Web Application

**DOMAIN:** csldap in the domain field of the login page.

First, accept the certificate and login to [The Dashboard](#) with your CNetID and password.

### 2 Create Application Credentials

Using the menu on the left, select "Identity → Application Credentials" to access [Application Credentials](#) interface. Click the "+ Create Application Credential" button and fill out the form

<sup>1)</sup>
