

# Mail Forwarding

Email forwarding has gone through many changes so what you thought was true may not be true now.

## Current

When a CS account is created we forward all of your CS mail([cnetid@cs.uchicago.edu](mailto:cnetid@cs.uchicago.edu)) to [cnetid@uchicago.edu](mailto:cnetid@uchicago.edu).

## Change the forwarding address

Currently, the only way to change your forwarding address is to ask us ([techstaff@cs.uchicago.edu](mailto:techstaff@cs.uchicago.edu)).

## Historically

We also used to forward mail to [cnetid@uchicago.edu](mailto:cnetid@uchicago.edu) by default, but we offered a method of changing the forwarding yourself by editing a file in /stage. If you see any documentation to this effect it is now incorrect. Please see [change\\_the\\_forwarding\\_address](#) for details on how to forward mail today.
