

# Printing

All printers have a label <foo> which indicates its subdomain. E.g. foo.cs.uchicago.edu. Please use the domain name indicated by the label when adding a printer.

## Which printers are available for PhD student use?

There should be a printer in the office you are assigned. Please use it. Rooms 235 and 362 are available for larger jobs or if your printer is out of toner.

Rooms 214 and 314 are not for student use.

## Printer List

The list below will not necessarily reflect any recent changes.

Location	Printer Hostname	IP Address	Make and Model	Color?	Duplex?	Jet Direct?
Crerar 214	tree2.cs.uchicago.edu	10.135.18.13	Canon iR-ADV C7570 III	No	Yes	Yes
Crerar 214	sassafras.cs.uchicago.edu	10.135.18.16	HP Color LaserJet M553dn	Yes	Yes	Yes
Crerar 235	basswood.cs.uchicago.edu	10.135.18.17	HP Color LaserJet M553dn	Yes	Yes	Yes
Crerar 235	willow.cs.uchicago.edu	10.135.18.49	Xerox WorkCentre 6515N	Yes	Yes	Yes
Crerar 314	persimmon.cs.uchicago.edu	10.135.18.26	HP Color LaserJet M553dn	Yes	Yes	Yes
Crerar 314	tree1.cs.uchicago.edu	10.135.18.56	Xerox WorkCentre 7845	Yes	Yes	Yes
Crerar 314	forest.cs.uchicago.edu	10.135.18.51	Canon imageRUNNER iR-ADV C5550	Yes	Yes	Yes
Crerar 362	chinkapin.cs.uchicago.edu	10.135.18.20	HP Color LaserJet M553dn	Yes	Yes	Yes
Crerar 362	timber.cs.uchicago.edu	10.135.18.50	Canon imageRUNNER iR-ADV C5540	Yes	Yes	Yes

## Quick Install

### MacOS

If your Apple device has been added to the CS MDM server you should be able to add printers from

the AirPrint list while connected to the UChicago network (VPN counts, SSID `uchicago` does not work).

Unfortunately some of the printers don't advertise their name properly yet. So you may need to add them manually:

Otherwise you will have to add printers manually:

```
ipp://<printername>.cs.uchicago.edu/ipp/print
```

## Adding a printer

1. Open System Preferences
2. Click Printers & Scanners
3. Click the "+" button
4. Move to the IP tab
5. Add the printer by typing in its FQDN (e.g. sassafras.cs.uchicago.edu. Printers are labeled with their name)
6. select "Internet Printing Protocol - IPP"
7. Click "Add" to add the printer to your printer list. The mac may download and install the proper drivers for the printer at this point.
