

NoMachine Client Connection Guide

Download and Install

If you haven't already, [Download and Install](#) the enterprise client. Follow the procedure that applies to your computer.

The application is preferred over [the browser](#). Try it out or, [read about the differences](#).

Launch and Configure the Client

NOTE: The application will try to [autodiscover](#) hosts, and this is not a valid option. Ignore the application's attempts to discover hosts and proceed with these instructions.
