WiFi

uchicago-secure connection details

SSID/NetworkName	uchicago-secure
SecurityType	WPA2-Enterprise
Encryption	AES
EAP Type	PEAP
Inner EAP Type	MSCHAPV2

Android users: if your phone says you must enter a CA certificate, select "Use system certificates" and put in uchicago.edu as the domain.

Guest WiFi

Any **faculty** or **staff** member can sponsor someone to get them credentials to login into the SSID 'uchicago-guest'.

1. Go to http://uchicago-guest.uchicago.edu
2. Sign in with your CNETID credentials.
3. You or the user can fill out the form. This will give them credentials to login to the SSID 'uchicago-guest'.

Conference WiFi

Please email techstaff@cs.uchicago.edu. A conference WiFi account requires a trusted agent to create.
