- How to Git

Bare Git Repository in your CS Home directory

Source documentation

SSH to a CS server

```
ssh cnetid@linux.cs.uchicago.edu
```

Initialize a bare repo in your CS home directory

Note that a bare repo cannot be edited directly. You will need to checkout the repository elsewhere in your home directory.

```
$ mkdir $HOME/myproject.git
$ cd $HOME/myproject.git
$ git init --bare --shared
```

Check out your repository

Even if you are on one of the linux.cs servers you will need to checkout the bare repo.

```
git clone cnetid@linux.cs.uchicago.edu:~/myproject.git
```
