UChicago CS VM

The Department of Computer Science provides an Ubuntu 20.04 virtual machine image that approximates the software environment found on the department's physical computers and login servers.

The current version of the UChicago CS VM is **202122.2**
DDownload OVA File: BoxUChicago (5.8 GB)
MD5: d75e2980130ca25742f6cdfdfcd45474

The VM has a `student` account with password `uccs`. This account has sudo privileges on the VM.

For instructions on how to run the VM, see Installing and Running the UChicago CS VM. We also have a a guide for running the VM in Headless Mode and a FAQ with common issues.

Past VM images can be found in the VM Archive.
